ISTE Certification **AUTHORIZED PROVIDER**

Workshop Description:

ISTE Educator Certification is a learning experience you will not want to miss! You will deeply learn and think about the application of the ISTE Student Standards (which are the WI Information and Technology Standards) and also take a deep dive into the ISTE Educator Standards and the indicators to support your certification. While learning about indicators, you will be building artifacts related to Universal Design for Learning, Design and Computational Thinking, Digital Responsibility and Leadership, learner-centered practices, and how digital tools and strategies will support this methodology.

This certification process includes:

Blended Learning - Synchronous and Asynchronous learning

Online Learning - 3 or 5 modules: depending on the path you choose

Portfolio - Build artifacts that correspond with indicators and submit to ISTE for approval

You will be guided through this whole certificate from the CESA 2 ISTE Ed Certification team!

CESA 2 Exclusive: you will have access to a FREE "How to Facilitate Online Learning" module!

You can also sign up for graduate credits if needed.

Check out the ISTE FAQ for additional details about this special online training.

Why take the ISTE Educator Certification? Let's see what others had to say:

*"I **learned so much** from this experience and I **can't wait to keep learning and growing** in the knowledge through the online modules and portfolio!"*

*"I loved being able to **collaborate with other educators** who were very open to this experience and training session."*
