WMELS qualifies for additional YoungStar points

The Wisconsin Model Early Learning Standards specify developmental expectations for children from birth through entrance to first grade. The standards reflect attention to all the domains of a child's learning and development. Each domain is divided into sub-domains. Each sub-domain includes developmental expectations, program standards, performance standards and developmental continuum. Samples of children's behavior and adult strategies are also provided.

This course will include an overview of the contents and design of the Wisconsin Model Early Learning Standards and how to apply them within any early learning classroom setting.

Activities will emphasize:

- How to plan for the 'whole child' using the WMELS as a guide;
- How to plan for and implement developmentally appropriate activities with targeted objectives;
- How to assess children's growth and development using both informal and formal assessment strategies;
- Meets DPI Teacher License Standards 2, 3, 4, 5, 7, 8, 9 & 10.
