"Our team of coaches has developed a better definition of our roles in the district. I have improved my questioning skills with my teacher clients and worked on building emotional resilience with them."

"The ICN has taught me to think deeply about the teachers with whom I work, to consider the other person's perspective, and navigate through the emotion cycle with clarity."

"I have gained more knowledge on how to have effective coaching conversations, I have learned and reflected more on the coaching competencies, and I have gained a broader perspective on coaching roles..."

The dates below will be live virtual sessions. 2 additional hours of learning will be made available via flipped learning, homework, district team-time, and group networking.
