

What we do NOW and what we do ALWAYS with Literacy Interventions

VIRTUAL 4 PART SERIES

Part 1 & 2: The first two sessions will focus on examining your Multi-Level System of Support to answer the following questions:

- Do we have a school-wide process to address student needs during this time of changing environments?
- How does our system bend and flex, and what do we need to know in order for our system to bend and flex?
- How do we become crystal clear on intervening around the most essential pieces?
- Are we supporting our interventionist to focus on best practices?
- Have we designed interventions to match our student needs?

Part 3: Now that our system is in place, it's time to solidify plans of action.

- How do we think about increasing TIME, INTENSITY, or FOCUS for students?
- Do we understand how to use a root cause analysis to identify student needs?
- Have we thought about creating individualized learning plans for students who we are most concerned about?

Part 4: Navigating the Sticking Points of Systematic Literacy Intervention presented by Julie Schmidt from Solution Tree

Audience: Tier 2 or Tier 3 Literacy Interventionists, Principals, School Psychologists

We encourage building teams to attend.
