Introduction to Online Course Building in Studywiz

October 12, 2011 @ CESA #4 Discovery Room

Not every learning management system is the same. Studywiz Spark is the first and only Dynamic LearnSpace for online course development and district designed specifically for K-12 education that creates an enriched online learning environment for students through educational content collection, organization and interactivity; collaboration and personalized learning; real-time feedback and assessment and e-locker storage. It even works with your students' iPads and iPod touch devices.

Join us for a day of hands-on learning with this tool. We will explore the various tools within Studywiz for you to build and manage your online class. CESA #4 provides this training free to all teachers who are members in WWLEARN or the Coulee Online and Distance Learning Consortium for their online course development needs. (Student seats are available at a discounted fee for all members)

Registration Fee:

- ✓ Free for Coulee Online & Distance Learning Consortium & WWLEARN Members
- ✓ \$150 for all others

Viterbo Credit Available for an additional \$200

- ✓ Payment and registration for Viterbo Credit required the day of the workshop.

Registration Details:

Time: 8:30 am – 3:30 pm
