

# ACP Community of Practice

The easy way for school districts to get answers for common ACP challenges!

Third Wednesday each month @ 3:30 p.m.

\*\*BONUS Xello sessions on most first Wednesdays!

\*\*Follow-up sessions with your CESA ACP Consultant on third Friday each month @ 9:00 am

## Start the Year Strong! Provide your students with a vibrant ACP process

Join a new virtual ACP Community of Practice\* that will focus on a different ACP topic every month. Choose only the topics you need! Here's what you'll gain every month:

- Expertise with leaders or peers who will share their ACP experiences and strategies
- Resources to help you put your learning into practice
- Follow-up support sessions with your CESA ACP Coordinator so local school districts can share best practices and brainstorm challenges together

*\*All sessions will be recorded so you can participate synchronously or asynchronously. Calendar on next page.*

### ACP gives students what they need for success – and that is especially critical right now

- When students choose courses that align to their career interests, their **sense of belonging and engagement** in learning increases.
- Career exploration helps students find the **relevance** in their classes and increases **academic motivation**. These are **ESSENTIAL** when learning takes place in virtual or blended environments.
- ACP provides students with access to the **guidance and support** they need when they need it. It ensures that ALL students have a plan for success after high school.
- ACP helps students to be **better equipped to succeed**, even in a recession when opportunities become more scarce.

Sponsored by DPI and CESA 6
