Presented by Curriculum,
Instruction and
Assessment Package

Do you have a vision of excellence in teaching and learning that promotes higher student achievement?

Let **HIGH IMPACT TEACHING** help you make that vision a reality. Calling all:

- Experienced teachers who want to be re-inspired and learn something new
- New teachers looking for practical tools and more effective teaching strategies
- Staff developers who want a bag of new ideas
- University lecturers who want to wake up their students
- Principals seeking a benchmark for teaching excellence
- Anyone who gives instruction to kids or young adults

You won't regret spending a day with Tiffany Riendl! As a popular presenter at Washburn Academy, Tiffany received these comments from teachers in western Wisconsin:

Tiffany Riendl has 17 years of experience as an educator. For six years she has been presenting High Impact Teaching to rave reviews. She holds a BA from UW-Stevens Point and a Masters degree from Saint Mary's College of Minnesota. She is currently a teacher at Jefferson School for the Arts in Stevens Point, WI.

High Impact Teaching is a one-day workshop packed full of brain-based teaching techniques that demonstrate how to engage, involve and activate even the most reluctant learner. All the techniques are effectively modeled during the presentation so you can experience the dynamic effects for yourself. It doesn't matter what content you cover or what age group you work with, if you have to manage attention spans, give directions, create inviting learning environments and make material memorable you don't want to miss this workshop!

Registration – EXTENDED TO OCT. 7 – REGISTER NOW!
