

Early Intervention Coaching Book Study

RESource staff will be facilitating upcoming statewide learning opportunities to support implementation of evidence-based practices in Birth to 3 Programs. We encourage you to participate in study and discussion of the following book by Dathan Rush and M'Lisa Shelden. Book study cohorts will be conducted via technology, including online links and phone connection during the times listed below.

Dates and Times

December 7th, 21st

January 4th, 18th

February 1st, 15th

March 1st, March 15th

All sessions are from 11:00-12:00 pm

This is a unique opportunity to enhance your practice by learning within a group context through valuable discussion, reflection, and implementation of new practices. This will increase connections within your team and programs throughout the state. We hope you choose to continue these discussions and connections long after the book study is over.

Previous book studies have shown to be most impactful when individuals participate with other team members (or their entire team) and with the support of program leadership. To ensure the success of the book study, we are asking that you:

- Participate with at least one other team member.
- Have support from your leader.
- Are able to commit to participating in all sessions.

Once you register, calendar invitations will be emailed to all participants to reserve the scheduled date and times. Click here to register [Link to Register](#)
