Rtl Framework Mapping

One-Day Team-Based Session

The Rtl Framework Mapping process allows a school team to articulate their multi-level system of support around the three essential elements of High Quality Instruction, Collaboration, and Balanced Assessment.

Outcome

- Create a defined “map” of your school system’s practices and resources within multiple levels that facilitates student success within a Rtl framework
- Determine Rtl components established and those still needing implementation within your building

Audience

- This workshop is designed for teams focusing on a grade level content area.
- Key individuals who should be included are curriculum leaders and staff representing the grade level/content area chosen for mapping focus.
- Teams need not have attended a Rtl Foundational Overview; the Rtl Framework Mapping sessions are designed for schools with background knowledge in Rtl and who are already on the Rtl journey. Schools with no background work in Rtl will not benefit from this training.

Preparation

Bring materials outlining curriculum, instruction, and assessment data related to the grade level/content area you have determined to begin mapping in your building.

Cost

\$50 per person

Date and Location

February 29, 2012, 8:30 a.m. to 3:30 p.m., Glacier Canyon Lodge - Wisconsin Dells

Registration:

Register online at www.myquickreg.com. Registration deadline is February 24, 2012.

For information about registration, please contact your CESA. For more information about the training content, please email helmuellerb@wisconsinrtlcenter.org or call (414) 803- 9830.
