

*Feelings Come and Go...*  
but the love you have for  
your child will carry you on...

**February's Family Support Networking** will focus on the path like no other - raising a child with exceptional needs.

We'll chat about how we came to travel this road in life, where we are in our respective journeys, and we'll reaffirm that all those complicated/messy/difficult feelings are OKAY!

If you are comfortable and willing, bring a photo of your children to share. We'd love to see the tour guide that led you to our group!

As always, this space is a safe one for you - to share, to listen, to reflect, to network, to just BE! Come as you are.
