

Nonviolent Crisis Prevention Intervention (CPI) Training

INITIAL

April 21, 2021

9:00 AM - 2:00 PM

(Limited to the first 10 participants)

The Nonviolent Crisis Intervention® Training Program is a holistic behavior management system based on the philosophy of providing the best Care, Welfare, Safety, and Security for staff and those in their care, even during the most violent moments.

The program focuses on preventing disruptive behavior by communicating with individuals respectfully and with concern for their well-being. The program teaches physical interventions only as a last resort - when an individual presents an imminent danger to self or others - and all physical interventions taught are designed to be non-harmful, noninvasive, and to maintain the individual's dignity. Follow-up debriefing strategies are also key components of the training program.

This training will focus on the following modules:

Module 1: Crisis Development

Module 2: Integrated Experience

Module 3: Communication

Module 4: Responding to Defensive Behavior

Module 8: Post Crisis

This training will not cover the Safety Interventions (Holds and Releases). The holds and releases will be taught at a later date at the CESA #12 Conference Center when conditions allow. This training will be an Initial Training for those new to Nonviolent Crisis Prevention.

Participants will be required to complete an online training portion before attending the virtual session on April 21, 2021.

Presenter:

Stephanie Lulich, CESA #12 CPI Certified Instructor

Target Audience:

Regular and Special Education Teachers, Paraprofessionals, Student Support Staff, Administrators, anyone required to deescalate individuals in crisis situations
