

Web 2.0 for Special Education

January 31, 2012

Presenter: Paula Walser, Director of E-Learning

Web 2.0 tools are technology tools (often free) that are used to enhance creativity, information sharing and collaboration. 21st Century Skills require that our students demonstrate the ability to communicate and collaborate in a global society.

This hands-on session will provide you with an opportunity to investigate Web 2.0 tools for struggling students including:

- ✓ wikis,
- ✓ avatars,
- ✓ glogs,
- ✓ copyright friendly sites for images and video,
- ✓ social bookmarking, and
- ✓ web-based productivity tools.

This workshop will not only teach you how to use these transforming technologies but will also put you well on your way to implementing them in your daily practice.

You will leave this workshop with a plethora of new technology skills and free online practical applications for 21st Century Learning to engage and motivate your struggling students.
