"This certification process has transformed my teaching practice."  
- WI Elementary Teacher

## ISTE Certification: Spring 2021

**Totally Virtual - you can participate from your home or school!**

**DESCRIPTION:** The ISTE Certification is focused on pedagogy, not tools. It's not about edtech per se, it's about what you do with the tech to transform learning and improve student outcomes. Join us as we learn about leveraging technology while implementing high-impact learning environments.

We will meet 5 times synchronously using Zoom to build community and learn together. Before, in between, and after, participants will engage in asynchronous activities all related to ISTE Educator Standards. Finally, each participant will align artifacts with criteria based on the ISTE Educator Standard indicators. You will have guidance and support from CESA 2 throughout this process!

**CESA 2 is proud to have the highest success rate of passed portfolios & program completion for the ISTE program! Learn how to design powerful learning experiences that are relevant and responsive for students through leveraging digital tools.**

**PRESENTER:** Beth Clarke

**Beth Clarke** is an innovative educator with a passion for digital leadership. She loves working with districts and teachers to unleash potential by leveraging digital tools and resources. Beth earned her Undergraduate degree in Art Education and her Graduate degree in Instructional Technology from UW-Whitewater. Additionally, she has procured her Education Administration licenses for Principalship and Director of Curriculum and Instruction from Edgewood College. She has a love of learning and applying new strategies to classroom opportunities, professional learning, and presentations.
