

# April Family Support Networking

DATE: April 26

TIME: 6:30 pm  
via ZOOM

While raising and supporting children, the topic of behavior comes up a lot. How is your child's behavior? A lot of people define behavior in a negative light; not listening, being naughty, a kiddo screaming on the floor of Walmart. We've been there, too! The truth of it is, we all have behavior. In our April Family Support Networking, we'll be talking about behavior and how behavior is defined. We'll chat about why kids might be displaying challenging behavior and how we can change how we think about our child's behavior. We'll be offering up some strategies to implement at home and conversation starters for partnering with your child's school on how to work through those tough, inflexible moments.

As always, this is a safe space for you to come, listen, and share.
