

2021-2022 CESA 6 Learning & Assessment Collaborative

Facilitated by: **Eric Larsen**

The CESA 6 Learning & Assessment Collaborative connects school leaders in curriculum together around shared learning and information sharing. During monthly meetings, relevant and timely information is shared around topics including up to date information from DPI; state and federal accountability; state and local assessments; curriculum; standards; and professional development topics. Significant networking allows participants to work together to solve problems and help move school districts forward. Feedback from multiple districts is collected often to help districts solve relevant problems they are facing in the moment.
