March 30, 2022
3:30-5:00 pm**

**\$150.00 per
person for all
entire year**

CKLA LITERACY NETWORK

Core Knowledge Language Arts is a comprehensive language arts curriculum program for students in preschool through grade 5. While teaching skills in reading, writing, listening, and speaking, Core Knowledge Language Arts (CKLA) also builds students' knowledge and vocabulary in literature, history, geography, and science. The curriculum covers concepts specified in the Core Knowledge Sequence.

There are currently six districts in the CESA 8 region that will be implementing the CKLA ELA program during the 2021-22 school year. Teachers across some of these districts have reached out to CESA 8 requesting the development of a networking group to share ideas and resources and offer support during the implementation process.

Join your regional colleagues in a unique networking opportunity!
