Instructional coaches, mentors, teacher leaders, and interventionists build teacher capacity and are used strategically to improve universal instruction rather than working exclusively with small numbers of students. Join us for networking and professional learning around a variety of topics aimed at building capacity to improve student outcomes.

Sessions will include resources, strategies, and conversations to coaching and mentoring, as well as provide time for participants to network and problem-solve with other educational professionals from local districts.

Meetings will be held in-person at the CESA 5 office in Portage unless otherwise noted.
