

Screening & Progress Monitoring

Two-Day Team-Based Pilot Session

This pilot of the Screening and Progress Monitoring Training increases the capacity of school teams in understanding, analyzing, and using data to drive decisions within an Response to Intervention (Rtl) system.

Audience

- This workshop is designed for school teams building capacity in effectively and collaboratively analyzing data within a Rtl framework. Key individuals: leadership staff, instructional staff, problem-solving team members.
- **Teams are encouraged to attend both days.** Day 1 builds knowledge of the screening and progress monitoring processes. Day 2 offers more specifics in monitoring student progress.

Day 1 Outcomes

- Develop an understanding of analyzing data within a Response to Intervention (Rtl) system
- Distinguish between screening and progress monitoring
- Understand collaborative analysis of screening and progress monitoring results

Day 2 Outcomes

- Explore the making of decision rules and how they drive systemic data-based decision making
- Understand how to set appropriate slope goals to determine student progress
- Learn how to create progress monitoring data and a laptop for team use

Preparation

Participants should bring a sample of student progress monitoring data and a laptop for team use

Cost

\$100.00 per person for the two days (includes materials, continental breakfast, lunch, afternoon snack)
