

Behavioral Approaches Designed for Student Success

This highly interactive behavioral training will take initiatives such as **PBIS** (Positive Behavioral Intervention and Supports) to the next level by providing solid school structures that strengthen the social interaction skills of all children. **Conscious Discipline®** brings brain research to life by increasing participants' understanding of strategies designed to improve student test scores and performance. In this highly interactive workshop, the elements of the **SEFEL** (Social Emotional Foundations of Early Learning) Pyramid are reinforced with practical classroom interventions that address the behaviors of even the most challenging children. Learn how to bully-proof your classroom to create an environment of optimum safety and learning.

This research based workshop teaches effective strategies designed to:

- ♥Boost academic achievement
- ♥Decrease problem behaviors
- ♥Develop essential social skills
- ♥Enhance parenting skills
- ♥Build character and integrity
- ♥Improve cooperation
