

Regional Career Pathways Workshop

June 10, 2021 8:00 AM- 1:00 PM

Happy Spring! As we look forward to the end of another year, we know everyone is already starting to plan ahead for the 2021-22 school year. Academic & Career Planning has continued to play an important role in Career Readiness in our districts and economy. We are excited to announce another component to incorporate into district ACPs! Regional Career Pathways are a series of connected career and technical education and training opportunities that move seamlessly from high school into a postsecondary option for a specific career area. As we work to integrate these into our school districts, it is important that all educators are able to define and share with students and families what RCPs are, and how they fit into Academic & Career Planning as a sequential part of the career readiness process. Our alignment of efforts in the opportunities we offer students help us to ensure every student graduates college, career and life ready!

Please feel free to reach out to Jessie or Amanda with any questions!
(jsloan@cesa4.org and alangrehr@cesa4.org)

We value your time and commitment to the development of the Regional Career Pathways process at the local level, so we are offering stipends for our June workshop which is now open and ready for registration on MyQuickReg. It is limited to the first 15 educators, and we encourage districts to bring a team. Now is the time to take your Career Readiness to the next level to ensure your students are college, career and life-ready and CESA 4 is here to help you!

[Regional Career Pathway Process \(3:29\)](#)

- Space limited to 15 participants (teams are encouraged)
- Each participant will earn \$200 stipend (includes pay, lunch, & mileage)
- June 10th is a required in-person event at CESA 4, 8:00am-1:00pm
- Focus will be on each school localizing at least one of the approved 7 Rivers Regional Career Pathways for their district (Advanced Manufacturing & Healthcare) - templates will be provided
- Local Career Pathway is due no later than June 18, 2021 submitted to CESA 4
