Supporting 2nd- & 3rd-year teachers is critical if schools want to improve teacher retention, improve instructional practice, and positively impact student outcomes. (Stronge and Ingersol, 2014) Similar to our Initial Educators workshop series, we will offer 2 face-to-face workshops specifically for teachers in their second and third years of teaching. The focus of the workshops will be tailored to meet the needs of the group and create a network of support.
