

What is Digital Citizenship?

Digital citizenship can be described as the norms of appropriate, responsible behavior with regard to technology use. To foster Digital Citizenship, schools must partner with parents and students.

Participants in this workshop will learn:

- The Nine Elements that together make up Digital Citizenship
- Internet Safety using NetSmartz curriculum
- Communicating with students

"Most of today's students are entirely comfortable with technology, but are they using it appropriately? Do they understand their roles and responsibilities in a digital society? How can teachers help students become responsible digital citizens?" Gerald Bailey and Mike Ribble from their book Digital Citizenship in Schools.

December 12, 2011
