

Reviewing and Selecting High-Quality Instructional Materials for English Language Arts

2-Day Vendor Fair

**Register for one or both days.
Attend in-person or virtually.**

In-person participants (limit 25) will receive sample materials and will be able to explore vendor resources at CESA 5. Virtual attendees will receive a Zoom link for each day and will be able to listen in on vendor presentations.

Join us for a two-day FREE event at CESA 5 where you will be introduced to the process of reviewing and selecting high-quality instructional materials and standards-aligned resources. In addition to providing you with background information and resources to consider your readiness as a district, we will have a virtual showcase of vendors who will be highlighting curricular resources related to the teaching of reading and reading foundational skills. You will have the opportunity as a team to explore and review materials, ask questions, and reflect on your next steps in the selection process over the course of this day.

Target Audience: C&I Directors, Reading Specialists, Literacy Leaders, Administrators
