MATH LEADERS NETWORK

Join us for the Math Leaders Network to stay informed on math issues and initiatives at the local, state, regional and national levels. Participants will explore best practices, tested strategies and tools to support professional and collaborative learning. Using the power of the professional learning community, participants will grow their knowledge of mathematical concepts and expand their leadership, coaching and instructional practices. Examining strategies, resources and tools will enable us to create solutions for the most pressing challenges in our math classrooms.

TOPICS MAY INCLUDE (but not limited to):

- Powerful math models and representations
- Coaching tools
- Instructional strategies for building the math practices
- NCTM (National Council of Teachers of Mathematics) Teacher Standards
- Authentic assessments
- Empowering the math student
- *Other—participants may suggest / request topics for the meetings*
