The Early Childhood Special Education (ECSE) Outcomes Network is a series intended for ECSE practitioners. Through facilitated networking and common learning opportunities, sessions are designed to provide opportunities for practitioners to build their capacity to meet the unique needs of each and every child.

In addition to timely networking topics, the 2021-22 series will build on our theme for the year by utilizing content from the companion books:

Blended Practices for Teaching Young Children in Inclusive Settings (2nd Edition) AND *Assessing Young Children in Inclusive Settings: The Blended Practices Approach* to increase your skills in blending the best of regular and special education practices, developing effective curricula, and best practices in assessing young children in a variety of inclusive settings.
