## Demystifying Data: Using an Equity Audit to Improve Student Outcomes

10/18/2021 | 9:00 AM - 1:30 PM

### PRESENTERS:

- **Mike Corrie** | Director, Regional Special Education Network (RSN) Director
- **Nick Kohn** | Consultant, Learning & Assessment Center
- **Mary Ann Hudziak** | Director, Student Success Center

All districts face equity-based gaps that are preventing them from fully realizing their district mission and vision. Collecting and analyzing equity-based data is one of the first steps to close gaps and ensure equitable outcomes for all students. In this workshop, you will learn how to leverage a three-part framework for conducting an equity audit. Participants will have the opportunity to collaborate on a number of equity data-based scenarios, determine what the data means and how to act upon it.

### WHO SHOULD ATTEND?

All CESA 6 districts are invited to participate. Districts with a federal identification will be given priority. Attending the workshop as a team is highly recommended. A team may include: District and school administrators, specialists, curriculum/data coordinators, special education directors, school counselors and teachers. This workshop is provided as a direct support opportunity for CESA 6 districts by the CESA 6 Integrated Support Team.

### OBJECTIVES

- To provide districts with a three part framework for conducting an equity audit.
- To provide districts with tools to help conduct an equity audit analysis.
- To provide districts with processing time to engage with scenario based equity data.
- To allow participants to walk away with a “next steps” action plan.
