# Customized ACP Professional Development Plans

As a part of [Education for Employment](#), all school districts in Wisconsin are required to provide an Academic and Career Planning (ACP) process. The ACP process is all about providing individualized support for students... therefore your district deserves the same individualized ACP Professional Development!

That is why the Wisconsin Department of Public Instruction along with the Wisconsin CESAs have created a way for you to get the specific ACP PD resources you need to reach your goals and move your district's ACP implementation forward.

You can get:

- ACP Assessment and Action Planning Guide
- Specific PD resources that align with the goals your Career Readiness Team has identified for your district.
- Coaching support through the year to help you develop an in-district PD plan to utilize the resources and develop a plan of action to achieve your ACP goals.

Your CESA ACP Coordinators this year are Mary Maderich and Amanda Popovich and they are ready to guide you through this process! Here are your next steps:

1. Use this ACP Assessment and Action Plan Guide to assess your district's current ACP implementation. <https://bit.ly/3tphcSU>
2. Set your goals! What are a few areas that your Career Readiness Team wants to work on to really take your ACP process to the next level?
3. Let us know what your ACP goals are by submitting this form <https://bit.ly/3BURmZU>
4. Based on your goals, we will send you a custom ACP PD package with videos, reports, or other resources that will help your district achieve your goals.
5. We will check in with you periodically. You can also reach out to us anytime at [marym@cesa12.org](mailto:marym@cesa12.org) or [amandap@cesa12.org](mailto:amandap@cesa12.org)
