About this series

“Once phonics instructional materials and assessments are in place, the hard work begins. Too often, the implementation of these materials and resources fail due to common issues or obstacles.” - Wiley Blevins

Join us to continue the learning from *A Fresh Look at Phonics* as national presenter Wiley Blevins provides insights and information on how to avoid the implementation pitfalls and maximize learning.

- Identify your own phonics instruction failures (it's okay—we all make mistakes!!)
- How you can make the necessary corrections to improve your instruction and materials
- Maximize instructional time in order to increase student learning outcomes

Access to *A Fresh Look at Phonics* is recommended but not required.
