Differentiating UP!

Removing the Ceiling for ALL Learners

May 18 & 19, 2022 9:00 AM - 3:00 PM

For beginning or advanced educators, this two-day seminar on differentiating UP will offer you numerous ideas and strategies to challenge all your students. To be successful, students must be proficient not only in the content standards, but also in the advanced levels of thinking and learning. Teaching to these complex levels of thinking are essential components of effective learning.

Educators Will:

- Know specific techniques for differentiating UP in today's classroom
- Know general learning styles, modes, and preferences and how to apply for purposes of differentiation
- Be able to assist students in developing relevance through student interests for purposes of differentiation
- Be able to build a thinking classroom infusing higher levels of reasoning
- Be able to design rigorous learning options that challenge all students.
- Be able to infuse creative thinking and critical reasoning tools into curriculum & instructional practices
- Be able to construct leveled learning activities that challenge gifted/advanced learners, and scaffold for students who need more supports
- Be able to guide students towards greater independence and self-directedness
- Understand the teaching and learning process
- Understand the effect of quality curriculum and instructional practices on student achievement
- Understand the effects of self-regulation for learning

This workshop will include ideas and materials from the below resources.

This workshop is FREE for MVGTN Consortium Members.

Cost for non-consortium members is \$200.00.
