This workshop will help District and School IT leaders plan and prepare for possible CyberAttacks and Ransomeware events. Possible incident scenarios will be discussed along with various steps for dealing with a data breach. Presenters will provide resources to perform a risk assessment and to help prevent hackers from infiltrating your educational network. Various methods to ensure data privacy will be reviewed. Methods for instituting multi-factor authorization will be examined.

Presenters:
Ryan Cloutier, President of SecurityStudio
Lyle Dadian, Director of Instructional Technology at ClassLink
Ed Snow-DPI Instructional Technology
Marty Malloy-M3 Insurance
Lt. Col Sarah Frater, Wisconsin Cyber Response Team
