

2011-2012 Transition Network

**Transition is defined as the movement, passage or change from one position state, stage, subject, concept, etc. to another -
*The Transition from Adolescence to Adulthood***

The Transition Network is an opportunity for transition coordinators/teachers to connect with colleagues on the implementation of transition practices. The network will provide transition specific information for staff working with students with disabilities who are of transition age. Transition coordinators/teachers will meet three times during the year to share ideas and strategies for transition planning at the local level.

Participants will be actively involved in discussion, exchanging ideas, best practice and resources with one another and selecting meeting/discussion topics based on their transition needs. All network meetings will include group participation, relevant updates from CESA 6 and information from the Wisconsin State Transition Initiative (WSTI). Other transition related areas to be included during the sessions are: transition assessments, Indicators 13 & 14, summary of performance (SOP), self-advocacy, website reviews, post secondary goals, resource directories, transition advisory councils (TACs) and other related areas. At least one representative from each district is invited to participate.
