

Equity In The Math Classroom

Grades K - 12

JANUARY 18, 2023 | 9:00 - 11:30 a.m.

How do we ensure that every teacher is committed to high expectations for what students should learn in the math classroom? Join us to explore the necessary instructional shifts that will help prepare all students for the future.

- We will discuss the changes that need to be made so that mathematical proficiency is essential for each and every student in Wisconsin.
- We will examine the instructional practices that build the Standards for Mathematical Practice for all students so that every student has access to and can engage in meaningful, challenging, and rigorous mathematics.
- We will dive into Wisconsin's guiding principles for the teaching of mathematics and learn how to meet the needs of all students in our math classrooms.

REGISTRATION:

- <https://tinyurl.com/32dm4s32>
- \$75 per participant
- CESA 6 Conference Center
2300 State Rd 44, Oshkosh, WI

This workshop is a good fit for those who want to explore the topic of equity in mathematics and develop instructional practices that will engage all learners in the classroom.

OBJECTIVES:

- Examine equity in the math classroom
- Lead in guaranteeing rigorous and relevant instruction
- Understand and design purposeful assessments that drive instruction and affect learning
- Commit to building high expectations for all students in all math classrooms
- Explain instructional practices that build collaborative, responsive learning environments
