

iPads in Special Education

CESA 8 presents:

The iPad changes the way teachers and students access the web, share media, and learn on the go. This workshop will be broken up into an AM session and a PM session. During the AM session Eric Larsen and Kaye Lietz will present iPad basics including “must see” apps and websites for all educators. During the PM session participants will work in small job specific groups to explore and share “job specific” apps and other uses of the iPad to enhance learning for your specific students. Work groups will be divided into the following categories: Cross-Categorical, Autism, VI, DHH, Speech/Language, and OT/PT.

Registration Deadline:
Thursday, February 23, 2012

WHAT TO BRING:

- iPad (If you have one available)
