

CESA 5 2012 AAC Tour

If you are overwhelmed by the variety of communication devices and their many features, come to the 2012 CESA 5 AAC Tour! Representatives from five AAC companies will demonstrate their devices, apps and answer your questions! Open sessions in the morning and afternoon will allow you to talk with the vendors, "play" with the devices and ask specific questions.

See the latest in eye gaze technology, new devices, apps, software and customization options for students.

Invite teachers, SLPs, parents, administrators and support staff to

attend!

The seminar will be held in northern and southern locations in CESA 5.
