

# CREATE A CAREER PATHWAY

**OCTOBER 27, 2022  
9:00 AM - 2:00 PM**

**CESA #12 CONFERENCE CENTER**

Career pathways are an opportunity for students to follow a road map through high school in the area of study that they are interested in pursuing to obtain the knowledge and skills that will prepare them in that field for their post high school endeavors. Districts can select from regionally developed pathways or create their own local ones. Pathways are also a requirement for use of Perkins funding.

Come on your own or bring a small team to CESA 12 to this pathway workday where you will have the opportunity to update and enhance one or several pathways or develop a brand new one!

E-MLSS Key Features: High Quality Instruction, Continuum of Supports

Cost: FREE (Covered by the Regional Career Pathways Program)
