

Special Education and the Common Core

The Common Core State Standards have many implications for all educators. As educators, you will be charged with insuring that the CCSS is implemented in your classroom and any classroom you impact. This shift in teaching will lead to shifts in teacher evaluation, data analysis, and professional development.

The CCSS are laden with English Language Arts, math skills, and cross-disciplinary skills, e.g., communication, collaboration, critical thinking, and use of technology.

How will special education will be affected:

- Will the Common Core change what special educators need to know?
- Will the Common Core Standards lend themselves to modifications for learning profiles without minimizing expectations?
- How will important access and transition skills be integrated into the teaching schedule?

Cost: \$50.00 per workshop per participant from and School Improvement or RSN member districts: Beecher-Dunbar-Pembine, Bonduel, Bowler, Coleman, Crandon, Crivitz, Florence, Gillett, Goodman-Armstrong Creek, Gresham, Laona, Lena, Marinette, Marion, Menominee Indian, Niagara, Oconto, Oconto Falls, Peshtigo, Shawano, Suring, Tigerton, Wausaukee, Wabeno, White Lake
