

# Professional Learning Networks

*Designed for all K-12 Educators, Leaders, and Interventionists*

Are you looking for time to collaborate with job or position-alike professional educators in our region? Come to CESA 4 to join any of our educator network offerings for the 2022-2023 school year! Professional Learning Networks help bring educators together, who sometimes are singletons, to engage in collaboration and differentiated professional learning. They allow educators to stay up to date with the latest local, state, and national initiatives, while engaging in deep conversations with one another around effective instructional practices. Check out the network offerings below and click on the links that best suit you for more information. You don't want to miss out!
