

# Maximize Your Touch Using Ipad/Ipods Special Education Emphasis

## May 1, 2012

**Presenter: Paula Walser, Director of E-Learning**

This workshop will investigate the use of mobile computing devices within the special education classroom. Apple's iPod Touch and iPad are opening new opportunities for access to personal apps (applications) for communication, access to news, e-texts, and support of the curriculum! The PluseSmartPen from Livescribe offers a tool for capture of lectures, directions, way for collaboration through the web based tool and an alternative note taking solution for students with limited mobility! This workshop will provide an opportunity for exploration of educational and communication applications for the iPod Touch, iPad and SmartPen!

**20 ipads  
will be  
available  
for use**

### Participants will:

- be able to locate and evaluate an assortment of applications for iPod Touch and iPad for use within the special education curriculum,
- become aware of potential issues involving use of mobile computing technologies within the classroom,
- become familiar with potential use of SmartPen within the curriculum.
