Embrace **Science of Reading** and **Balanced Literacy** in Early Reading Instruction

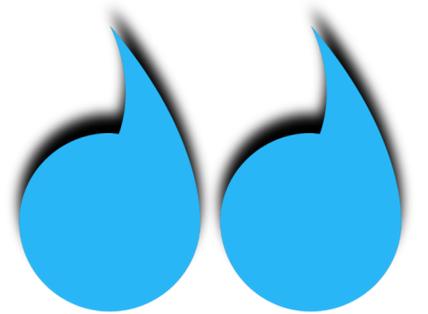

Plan Forward for Your Students' Success!

Every other initiative that leaders might undertake is less important than making sure that the students in the schools learn how to read.

Contents

Join the CESA 6 Literacy Center on a journey to create and implement strategic plans designed to build knowledge and systems that bolster the science and balance of early literacy instruction in your schools. *We will guide you every step of the way.*

CESA 6 Literacy Center's partnership work is supported by research and position statements from:

[International Literacy Association](#)

[Wisconsin State Reading Association](#)

[National Council of Teachers of English](#)

Resource agnostic: Regardless of your school district's curriculum resources, this learning opportunity will provide *critical, high-impact instructional strategies* that will bring value to your system.

This two-year partnership opportunity will provide coordinated support and services to school districts that promote continuous systems improvement. *(A two-year service package worth \$45,900.)*

Goals

Academy Year 1

Build a strong knowledge base about the science and balance of early reading instruction

Understand where the district is with these practices using tools from each session

Engage in learning processes at the district level to gather data about the current state

Create an initial district literacy implementation plan

Expand how to support grade-level texts and learning throughout elementary years to grade 5

Academy Year 2

Work within the initial district literacy implementation plan and build it into a full strategic literacy plan that includes monitoring strategies

Continue key learning related to further implementation and research

Scale the learning across the system with a focus on teachers through on-demand professional learning modules

Personalized support at the district level

Testimonials

Cohort 1 and Cohort 2 filled quickly with school districts from across the State of Wisconsin!

Feedback so far from some Early Literacy Academy participants:

"The information that was presented was very informative. I loved having the district tools to use to analyze where the district is in the process."

"I really like the focus on integrating comprehension and oral language with phonics and phonemic awareness. The team planning time was very helpful. All of the tools and resources are helpful and organized."

"We had good conversations with our team! We received more clarity around phonics, phonemic awareness, and phonological awareness."

"The presenters are well informed and knowledgeable!"

"The planning time with our team at the end was great! The activities that put us in the role of student were helpful as well."

"I was really happy that you were focused on the balance because I do have a fear that some districts hear SoR (Science of Reading) and want to throw the baby out with the bathwater rather than add a few things in to what they are currently doing."

"I appreciate the team time, we were able to have great conversations and find our starting point. It was also helpful to be able to see how oral segmenting and blending worked well in IRA (Interactive Read Aloud), SR (Shared Reading), and IAR."
