

The purpose of UDL implementation trials is to enable teachers, through team-based PDSA cycles, to develop self and collective efficacy around UDL practices. UDL implementation trials data also serve as a collaborative conversation focal point to center the practice-based discussion on student impact. By bringing together all of the CESA 9 districts currently involved in the trials process for a day of collaboration and learning, we will further **Connect** the work, **Grow** a network of support and **Inspire** others!

Who: Coaches and teachers who participated in the
UDL Implementation Trials

Purpose:

- Share the lessons learned during the early adoption of UDL practices in the classroom.
- Collaborate with colleagues from other schools on content-area-specific design strategies.
- Plan with school teams to further implementation in the 2023-2024 school year.

Where: CESA 9

When: May 9, 2023 from 9:00 am to 3:00 pm

Cost: FREE!
