

# Building Powerful Numeracy for Middle and High School Students

**March 7, 2023  
9:00 AM - 2:30 PM  
CESA 12 Conference Center**

Provide teachers with the tools and activities necessary to help your students build numeracy.

Experience Problem Strings and activities specifically created for the secondary level to help students construct powerful numerical relationships and connections that lead to success in higher math.

At this workshop, each participant will receive a copy of "Lessons and Activities for Building Powerful Numeracy" written by Pamela Harris.

*Focus on main numeracy strategies, big ideas, and models for each operation as well as how those strategies, ideas and models relate to higher mathematics.*

**\$75** per participant for districts that purchased Curriculum Network and Program Support (Drummond, South Shore, Winter) (breaks, lunch and activity book)

**\$275** per participant for all Others (registration fee, breaks, lunch, activity book)

E-MLSS Key Features:  
High Quality Instruction  
A Strong Universal Level of Support  
Evidence Based Practices

**Register at: [myquickreg.com](https://myquickreg.com)**  
(register before February 20th)
