CESA 9 Contact:
Mia Chmiel
mchmiel@cesa9.org

Date: August 2, 2023

Time: 8:30 am–3:30 pm

Location: Rasmussen
University - Wausau

Audience: District leadership, including Technology Leaders, Human Resources, Business Office and Managers, and Finance teams.

Cost per person (includes lunch):

(if eligible, discount(s) will automatically apply during registration)

Free for CESA 9 TDL Consortium Members

\$25 for other CESA 9 CSI Members

\$125 for non-CESA 9 CSI Members

Join us for a day of cyber safety focusing on incident response planning. Featured speakers for this hybrid event are Bill Nash and Tim Greve.

Tim Greve is the Chief Information Security Officer for the Wisconsin Department of Public Instruction (DPI) and volunteers as an Incident Response Team Lead for the Wisconsin Cyber Response Team (CRT). As a CRT lead, he's responded to multiple school districts during ransomware events and assists on many of the calls received by the CRT.

Bill Nash serves as a Cybersecurity Advisor (CSA) in Region 5 (Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin) at the Cybersecurity and Infrastructure Security Agency (CISA). Based in Madison, Wisconsin, he supports CISA's mission of strengthening the security and resilience of the nation's critical infrastructure. Prior to joining CISA, Mr. Nash served as the Chief Information Security Officer (CISO) for the State of Wisconsin.

Attendees will learn how to use free cyber incident resources from Wisconsin DPI and CISA, walk through cyber incident planning, and gain insight on lessons learned from Wisconsin Districts that have lived through cyber attacks.
