

MEANINGFUL LIVES AND BRIGHT FUTURES: IMPROVING YOUTH MENTAL HEALTH THROUGH ACADEMIC AND CAREER PLANNING

APRIL 24, 2024 9:00 AM – 3:00 PM

The picture of mental health that we want for our youth involves much more than providing access to counseling or planning mental health events during the school day. Academic and Career Planning is one programmatic strategy schools can utilize to transform the mental health of students. When students are able to envision an engaging, meaningful, and satisfying career, they not only gain access to a future marked by mental health, well-being, and success, but they gain motivation and engagement now. Join us to talk about how to reimagine the dual purpose of your ACP programming to benefit the holistic development of your students.

This workshop is recommended for Middle and High School Teachers, ACP and CTE Team Members, Middle and High School Administrators

COST

This workshop is FREE for districts enrolled in the Framework for Success mental health programming. Non-enrolled districts are \$150.00 per individual registered.

Each workshop includes food and drink, copies of training materials, and digital resources.
