

# Intentional Play: Enhancing Learning and Social Skills in Early Childhood Education

The Intentional Play workshop is designed for educators who are wanting to explore the research behind intentional play in classrooms 4K through third grade, how to align play to core standards, and how intentional play can improve social skills in learners. Join us for the opportunity to learn, explore and apply intentional play with us. The workshop will include a one day in person workshop with a follow up virtual coaching session on embedding intentional play within your classroom.
