Join CESA 9's Instructional Coaching Network! This series offers an opportunity to gather as a professional learning community to network, learn, and deepen our craft as coaches.

**Our Collective Outcomes** - In 2021-2022, instructional coaches across the regions engaged in designing the network's collective outcomes. Each year we review and re-engage with these outcomes:

- Develop a learning community through networking, supporting one another, and engaging in reflection that builds skill and confidence within those serving in a coaching role.
- Develop the essentials (coaching toolbox, "a day in the life" entry points for coaching) for implementing coaching that improves instruction and outcomes for students.

**This year's focus:** Deep dive into maximizing coaching using Jim Knight's Impact Cycle.

**November and February's featured learning will be facilitated by Jim Knight's Instructional Coaching Group!**

**Bonus Sessions and Extended Learning throughout the year via our new online Instructional Coach Community!**
