There are two required team work days to begin developing the knowledge, skill and materials needed for implementation. Teams should bring: school based behavioral data and office discipline referral form.

**U100 (Day 1)** - Participants will overview the systems, data and practices embedded in PBIS implementation. Staff evaluation of the discipline support processes are explored. The team drafts school-wide behavioral expectations, creates a behavioral matrix, and plans for team development.

**U200 (Day 2)** - Participants build on their work from Day 1 to develop an acknowledgement plan, develop a chart of office managed vs. classroom-managed behaviors, establish procedures for a continuum of interventions, evaluate the efficiency of “working smarter” among school teams, and create a system for effective meetings.

**Note:** *Attendance by school leadership at an Overview of PBIS is required prior to the start of Universal Tier I Team Training. The Readiness Checklist must be completed with the Regional Technical Assistance Coordinator prior to the training.
