

NONVIOLENT CRISIS INTERVENTION®

Training Series

2023-2024 School Year

Educators recognize the need for timely, effective nonviolent interventions with students who exhibit challenging behaviors. They know that such interventions improve the physical safety of all participants and create a more trusting and caring learning environment.

The Nonviolent Crisis Intervention® (NVCI) program is a safe, non-harmful behavior management system designed to help educational and human services professionals provide the best possible care, welfare, safety and security of disruptive, assaultive and out-of-control individuals. The new, enhanced NVCI programming provides the same core program, now with additional content and new physical intervention options.

OBJECTIVES:

- Identify the potential for aggressive or disruptive behaviors.
- Identify the appropriate measures to avoid, decelerate and/or de-escalate a crisis situation.
- Assess the level of risk associated with a crisis situation and intervene appropriately.
- Manage behavioral risk by learning disengagement and/or holding skills.
- Describe the potential impact that crisis situations have on individuals and staff.
- Explain the importance of providing person-centered, proactive services.

WHO SHOULD ATTEND?

Professionals, such as teachers, administrators, teaching assistants, social workers, counselors, psychologists, etc., working with students with challenging behaviors within school and community settings. These trainings are not recommended for parents.
