

# Student CARE Collaborative

## Extended Collaborative Series

The Student CARE Collaborative (formerly called “Safe & Healthy Schools Series”) provides opportunities for leaders, specialists, and educators to engage with peers regarding pupil services related topics of interest within and across professional disciplines. Additionally, member districts have access to periodic consultation from field experts. The information, training and collaborative discussions relate to mental wellness and other social, emotional or behavioral topics that require effective systems and supports to be in effect so that schools can meet the needs of the whole student.

### TOPICS

- Comprehensive School Mental Health Systems
- Alcohol, Tobacco and Other Drugs
- Suicide Prevention
- Support for Students Experiencing Homelessness
- Crisis Planning/School Safety Planning
- School/ Family/ Community engagement

### OUTCOMES

- Professional learning, collaboration and networking around pupil services-related topics
- Share experiences and ideas based on best practice in areas of prevention strategies, youth risk/resilience and staff resilience
- Awareness of current trends, legal issues, and timely funding opportunities
- Build capacity to create caring and connected school communities
