

TEACHING AND LEARNING WITH SCIENCE OER

Open Educational Resources

**This event will be a game changer for you
and your K-12 science educators!**

**November 30, 2023, 9:00 AM to 3:00 PM
CESA 4, West Salem, WI**

Engage

You will have the opportunity to engage in phenomenon based science lessons and activities to truly feel what science teaching and learning is all about within our three-dimensions of learning.

Free Open Educational Resources

You will also learn about free open educational resources that you can use in your science classrooms right away.

Collaborate/Shared Work Time

You will have time to collaborate and work together in the afternoon to start digging into the resources and planning lessons and units as you see fit!

Kevin Anderson, WI DPI

Kevin Anderson from the Wisconsin DPI will also be joining us for the entire day. He will help lead this great learning experience for all educators that support science in one capacity or another.

EVENT COST \$190

includes morning refreshments
and lunch
