

# Facilitating Formal Conferencing

A 2-day training for making preparations and running formal conferences.

Conferencing is the most formal of the Restorative Practices on the continuum, and is an in-depth and time intensive practice. Formal Conferencing is a procedure that creates a structured meeting between the person who caused harm, the person who has been harmed and both parties' family and friends, in which they deal with the consequences of the offense and decide how best to repair the harm.

This session follows the IIRP framework  International Institute for Restorative Practices

It is strongly recommended that participants attend Restorative Practices for Educators and used these skills before attending this training.
